

APEXA Update August 2020

Submitted by Victoria on August 27, 2020 - 9:39am

It is Global's turn to transition to the industry advisor contracting platform called APEXA. The life insurance industry is in the process of having advisors set up their information as a Life Licensee with various MGA and Carriers' Broker Agreements. This is an industry project and Global's advisors must also request new advisor contracts and update & upload licenses and Errors and Omissions utilizing APEXA.

We will provide more details on what you must do as we get closer to early September 2020. Stay tuned.

Warm Regards,

Global Pacific
